PROFESSIONAL SUMMARY

IT and Digital Systems Professional with 11+ years of experience in digital learning support, IT systems administration, user training, and infrastructure management within government and NGO environments. Demonstrated expertise in Learning Management System (LMS) administration, Microsoft 365 configuration, Windows workstation support, IT asset management, and network troubleshooting.

Experienced in supporting distributed offices and end-users in education and development contexts. Strong ability to communicate technical solutions clearly to non-technical stakeholders. Committed to data protection, cybersecurity awareness, safeguarding standards, and compliance with organisational IT policies.

CORE COMPETENCIES

Digital Learning & LMS Support

- LMS administration and user account management
- Online learner support and troubleshooting
- eLearning content support and SCORM awareness
- Screencast and digital training material development
- Instructional design collaboration

IT Systems & Infrastructure

- Windows 10/11 installation and configuration
- Microsoft 365 administration (Outlook, Teams, SharePoint, OneDrive)
- User account setup and permissions management
- LAN/Wi-Fi troubleshooting
- Hardware and peripheral support (printers, scanners, projectors)

IT Asset & Compliance Management

- IT inventory tracking and asset lifecycle monitoring
- System documentation and reporting

- Vendor coordination for device repair and maintenance
- Data protection and cybersecurity awareness

Data & Reporting

- Database management (MS SQL Server)
- MIS reporting and data quality assurance
- Dashboard and system usage reporting

Professional Skills

- Technical troubleshooting
- Stakeholder engagement and training delivery
- Clear written and verbal English communication
- Strong organisational and documentation skills

PROFESSIONAL EXPERIENCE

MIS Officer

MSI Ethiopia

June 2023 – Present | Addis Ababa, Ethiopia

Key Responsibilities:

- Administer and maintain Management Information Systems across multiple programme sites.
- Provide first-line IT and digital systems support for staff in regional offices.
- Support Microsoft 365 applications including Outlook, Teams, SharePoint, and OneDrive.
- Configure user accounts and troubleshoot access control issues.
- Generate system usage reports and data insights for programme management.
- Ensure compliance with organisational data protection and information security policies.
- Coordinate with central IT teams for escalation of complex technical issues.

Relevant Achievements:

- Improved data reporting accuracy through system validation checks and user training.
 - Reduced system downtime by strengthening user troubleshooting procedures.
 - Supported distributed teams in low-resource environments with remote system assistance.
-

IT Capacity Building Officer

North Shoa Zone Administration Office

April 2014 – June 2023 | Amhara Region, Ethiopia

Key Responsibilities:

- Served as primary IT focal person for zonal government offices.
- Installed, configured, and maintained Windows workstations and laptops.
- Monitored and supported local network infrastructure including internet and Wi-Fi connectivity.
- Provided troubleshooting for hardware, software, and network-related issues.
- Managed Microsoft Office and related application deployments.
- Delivered digital skills and IT systems training to staff.
- Maintained updated IT asset inventory and equipment allocation records.
- Coordinated maintenance and repair of IT equipment with vendors.
- Produced routine IT reports, issue logs, and infrastructure updates.

Relevant Achievements:

- Strengthened IT asset tracking and reduced equipment loss through structured inventory management.
 - Increased digital competency of staff through structured capacity-building training.
 - Improved network reliability across office units through proactive troubleshooting.
-

IT Teacher

Meteh Bila Secondary and Preparatory School, Berehet Woreda

September 2012 – January 2014

- Delivered Information Technology and computer fundamentals curriculum.
 - Taught programming basics and computer applications.
 - Supported ICT laboratory setup and maintenance.
 - Promoted digital literacy in an educational setting.
-
